The Annual Championship Meeting at Travers Island

The Probable Winners a Subject of Much Speculation.

Interesting Contests for Which Noted Athletes Are Entered.

The second annual championship meeting of the Amateur Athletic Union will be held on the grounds of the New York Athletic

Club at Travers Is and this afternoon. It promises to be the grandest athletic tournament ever held in this country, and athletes of local and national repute will meet in all corts of contests.

The games will take place, rain or shine. and the judications were this morning that the weather clerk would tear away the misty pail that has been hovering over the city for a week and let the contests be decided in bright sunny sunshine.

The grounds will be in as good condition as it is possible to have them after such a deluge. The grand stand has been finished and covered and will seat 1,300 people. The first event on the card is the 100 yard

The Executive Committee, with M. L. Bridgman in the chair, met shortly after 11 o'clock at the Grand Union Hotel, and after considerable discussion decided not to have the parade. It was reso ved that all hands should go over to Brooklyn and take lunch at the Long Island and the Kings County Wheelmen's Club rooms, and afterward hold the annual general meeting at the Brooklyn Bleyele Club's house.

This evening all the Brooklyn wheel clubs will entertain the visiting clubs. Early to-morrow morning the wheelmen will take a run to Long Island points, one party going to Hosiyn, and the other to Massapequa. Dinners will be served at the end of the routes and a good time generally had before the return trip.

Still the water gained.

The crew worked manfully, but by the morning of Sept. 11, the vessel was completely filled with water.

Then Capt. Beyer ordered the deck-load of lumber thrown over. This was done and the vessel squared away for the coast.

The storm, by this time, had developed into a howling hurricane, and the waves swept the vessel's rolling. The forcastle was swept away and the men could not get auything to eat.

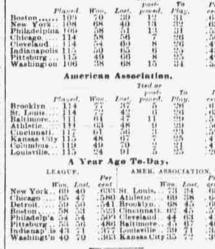

For two days the bark labored along in the seas, and finally arrived off Barnegat yesterday morning.

A steamer came along and asked if the bark wanted help. The offer was refused. Then the pilot-boat David Carll came up and wanted to take Captain Beyer and the crew off. This offer was also refused.

MERCHANTVILLE, N. J., Sept. 14. Sensational events are stirring in the case of young Annie Leconey, who was so cruelly assaulted and murdered at her uncle's farm-house, two miles from here, early last Monay morning. If a statement made by the chief of the Camden police last night may be taken literally, Frank Lingo, the negro at present locked up on suspicion of committing the deed, is

Lawyers Jess and Taylor, who were retained to defend Lingo, are jubilant, and said to The Evenino World reporter:

"Lingo will be a free man, his name cleared of all complicity in the crime within forty-eight hours."

They are also counsel for the negro, John Adkins, Lingo's cousin, who has been locked up as a witness. They say that he will also be freed. They seem to know the party whom the police believe to be guilty now, but will not even give a hint as to who he is. A reporter discovered the clue which points to the detection of the murderer.

On Tuesday while the newspaper man was doing a little detective work on his own account in the vicinity of the scene of the crims he found a pair of shoes, the soles of which were coated with blood and mud. He turned them over to Public Prosecutor Ridgway.
